**Transition Disclosures (continued)**

**Notes to the disclosures:**

Elements where a more conservative definition has been applied in the BCR relative to that set out in Basel III capital standards:

Row No.	Description	Hong Kong basis	Basel III basis
	<b>Deferred tax assets net of deferred tax liabilities</b>	19,068	19,068
<b>10</b>	<u>Explanation</u> As set out in paragraphs 69 and 87 of the Basel III text issued by the Basel Committee (December 2010), DTAs that rely on future profitability of the bank to be realized are to be deducted, whereas DTAs which relate to temporary differences may be given limited recognition in CET1 capital (and hence be excluded from deduction from CET1 capital up to the specified threshold). In Hong Kong, an AI is required to deduct all DTAs in full, irrespective of their origin, from CET1 capital. Therefore, the amount to be deducted as reported in row 10 may be greater than that required under Basel III.  The amount reported under the column "Basel III basis" in this box represents the amount reported in row 10 (i.e. the amount reported under the "Hong Kong basis") adjusted by reducing the amount of DTAs to be deducted which relate to temporary differences to the extent not in excess of the 10% threshold set for DTAs arising from temporary differences and the aggregate 15% threshold set for MSRs, DTAs arising from temporary differences and significant investments in CET1 capital instruments issued by financial sector entities (excluding those that are loans, facilities and other credit exposures to connected companies) under Basel III.		
Remarks: The amount of the 10% / 15% thresholds mentioned above is calculated based on the amount of CET1 capital determined under the Banking (Capital) Rules.			

**Abbreviations:**

CET1: Common Equity Tier 1

AT1: Additional Tier 1

### Balance Sheet Reconciliation

- a. The balance sheet based on the accounting scope of consolidation is used as a starting point and the amount for each item in the published financial statements based on the regulatory scope of consolidation is populated on the side. The scope of regulatory consolidation and that of accounting consolidation of the Company are identical.
- b. The following table expands the balance sheet under the regulatory scope of consolidation to show separately the capital components that are reported in the Transition Disclosures Template. The capital components in this table contain a reference which shows how these amounts are included in the Transition Disclosures Template.

Deductions from capital are reported as positive numbers, and additions to capital as negative numbers.
